Specifications/Standard Equipment

ACCOMMODATIONS

FOCS'L - Light gear stowage.

FORWARD CABIN - Two six foot plus vee berths with stowage and water tank under. 4" foam mattresses. Fabric covers with zippers. Stowage shelves over vee berths. Reading light.

WASHROOM - Port side - Marine toilet. Stowage locker outboard for toilet articles with deep fiddle. Open stowage area below. Light. - Starboard side - Large hanging locker. Head - Handling locker area closes off from both the forward and main cabin. A large aluminum frame opening skylight provides light and ventilation for both the forward cabin and head.

MAIN CABIN - Port side - Single berth extends under galley top with stowage under. 4" foam cushions. Fabric covers with zippers. Stowage shelf over with deep fiddle. Fixed port light with curtain wires. - Starboard side - Single berth extends under galley top. 5'3" long sliding extension provides additional child's berth. Stowage under. 4" foam cushions. Fabric covers with zippers. Stowage shelf over with deep fiddle. Fixed port light with curtain wires. Dining table with light fixture overhead. Carpeted cabin sole.

GALLEY AREA - Port side - Stainless steel sink and fresh water pump. Enclosed stowage under. Dish fiddles outboard on formica galley top. Dome light over. Safety main switch and individual circuit control panel for 12 volt electrical service. - Starboard side - Deep fully insulated

DECK & COCKPIT - Self bailing cockpit with recessed drains. Deep seat lockers port and starboard with hinged hatches and hasps. Stowage shelves in lockers. Accommodation for fuel tank in aft section of cockpit. Sliding main hatch. Opening aluminum frame forward hatch. Inboard shroud chain plates allows inboard sheeting of head sails and provides easy passage along decks.

CONSTRUCTION

HULL - Single unit moulded fibreglass using alternate layers of mat and woven roving with additional glass in high stress areas. Interior floor module is fibreglass. Bulkheads are marine grade teak plywood and marine grade with vinyl face plywood, all taped and bonded to the hull.

DECK - Single unit fibreglass using alternate layers of hand layed fibreglass mat and roving. Balsa cored for stiffening and insulation with minimum weight. Moulded non-skid pattern in all work areas.

BALLAST - Outside lead fin cast to high tolerances and through bolted to reinforced hull sections.

RUDDER - Outboard type. Laminated fibreglass with mahogany tiller.

DECK HARDWARE & RIG

MAST - Aluminum alloy with integral rail track and aluminum spreaders. One

halyard with rope tail and cleat. One internal 7 x 19 stainless steel wire rope main halyard with rope tail and cleat. Custom aluminum alloy mast step with halyard exits. Bow light.

BOOM - Anodized aluminum alloy with integral mainsail foot groove. Clew out-haul fittings. 1 x 19 stainless steel wire rope topping lift with rope tail. Roller reefing gooseneck.

RIGGING - Complete 1 x 19 stainless steel wire rope with integral forged bronze turnbuckles and toggles. Main sheet and genoa sheet are braided dacron. Roller bearing main sheet traveller with adjustable stops. Two genoa sheet snatch blocks. Rigging is lightning grounded.

DECK - Foredeck mooring cleat. Bow chocks mounted on black anodized aluminum alloy stem head casting which also carries the genoa tack shackle. Extruded black anodized aluminum sheeting rails full length of yacht port and starboard. Black anodized aluminum framed opening forehatch - skylight over forward cabin and head. Two *Barient No. 10 b/c genoa sheet winches and cleats. Hasps on cockpit seat hatches and on main hatch. Outboard motor bracket on transom. Stainless steel bow pulpit. Neoprene coated stainless steel life lines and stanchions. Roller bearing main sheet traveller with adjustable stops is mounted on the taff rail. Two standard *Barient winch handles.

MECHANICAL & ELECTRICAL

12 volt battery and battery box. Master

Shut off valves on all through hulls. Manual bilge pump mounted flush in cockpit. Water tank with 10 gallon capacity under forward vee berth. Deck filler and vent.

INTERIOR EQUIPMENT & FITTINGS

Marine toilet. Combination toilet-waste retention device if required. Stainless steel sink and fresh water pump in galley. 4" foam berth and seat cushions with zippered fabric covers. Main cabin table. Cabin lights as required. 2 3/4 lb. dry chemical fire extinguisher. Curtain wires.

FINISH

Standard white hull and deck. Choice of other colours at additional cost. Oiled Burma teak plywood bulkheads. Oiled Burma teak trim and fiddles. Moulded fibreglass cabin liners with oiled Burma teak joinery. Formica galley and table tops.
